Blossom Tea

Handcrafted blossom teas are an extraordinary and beautiful method of preparing very high quality tea. Following an age-old tradition, tea artisans bind Silver Needle White Tea leaves along with one or more flavorful, beautiful, and highly aromatic flowers, forming them into balls of different shapes. These balls are firm and hardy, so they may be carried along with a person individually or in bundles to be used anytime, anywhere. Since they are bound, you will never need a tea strainer or filter. When placed in hot water, these balls open up into magnificent blossoms, revealing both the tea needles and the perfect flowers hidden inside. It takes 4~5 minutes for the tea balls to open fully. Watching these tea balls bloom is almost a magical experience, as if you were right in front of a spring blossom inside a garden. The blossomed flowers, the aromatic scent, and the refreshing taste of tea leaves are pure joy for our senses. And best of all, they are as healthful as they are beautiful, providing all the benefits of premium white tea, the pinnacle of non-fermented, antioxidant-rich teas.*

Blossom Tea Variety Pack

Give the gift of blossom teas with this Blossom Tea Variety Pack. 7 different teas to delight guests and loved ones. Serve it in our Desktop Botanical Garden teaware to fully enjoy their beauty and flavor. Watch as each blossom tea blooms and unfurls in hot water.

eeTee

Made by Fingerprint Identical Transfer Technology™ (FITT™)

Dragon Herbs produces a range of herbal products using FITT™ extraction technology. The herbs are extracted at less than 108°F, preserving the pigments, bioactive components and intact enzymes. It can be consumed as a tea or in a smoothie, superfood blast or other mixer beverage. These are true raw extracts. They are essentially low temperature full spectrum extracts of the juices of difficult-to-extract herbs. FITT™ technology destroys NOTHING in the original material. The analytical “fingerprint” of the Longan eeTee™ is identical to that of the raw fruit from which it is made. That is what “FITT” stands for: Fingerprint Identical Transfer Technology.

Cosmic Meditation Essential Oil Diffuser

Dragon Herbs' Cosmic Meditation Essential Oil Diffuser is a treasure in its own right. The stunningly colorful display is simultaneously soothing and elevating. It is real art that your soul will appreciate. The colors flow through the spectrum, and though the mesmerizing pattern is hard to describe, calling it "cosmic" comes closest to a fair description. It is classy and fits in any home or office. Ron Teegarden has this diffuser on his home elixir bar and he uses it every night.

The oil diffusing mechanism is first class as well. Just add a little bit of water and 3 to 5 drops of your favorite essential oil or oil blend and push "play." In a few moments, the wonderful aroma fills your space, creating a comforting, lofty ambiance. It will run for many hours without becoming overwhelming or deficient.

With just a flick of a switch, your room will be filled with fragrance and gentle, cosmic lights, and all your senses will be soothed and rejuvenated. Perfect for meditation, a good book or a nap!
